# CORE VALUES

## **Integrity**

We strive toward consistency between our words and actions and are dedicated to professional ethical standards.

## **Excellence**

We are highly committed to delivering positive business outcomes.

## **Diversity & Inclusion**

We value and embrace all stakeholders, respecting everyone's unique contribution and treating everyone with the respect and dignity they deserve.

## **Accountability**

We take ownership for all our outcomes.

## **Innovation**

We are committed to creating new ways to deliver optimal results.

## **Teamwork**

We promote collaborative development as we work, learn and strive for excellence.

## **Customer Focus**

We recognize that our decisions and actions are guided by meeting and exceeding the expectations of our internal and external customers.

# CHAIRMAN'S STATEMENT

We have all been affected by the impact of COVID-19 and must respond appropriately. This post-pandemic world, characterized by increasing volatility, uncertainty, complexity and ambiguity, has resulted in exponential change in our social, economic and political environments. Given these challenges, NIPDEC has reviewed its operations and explored new business opportunities while improving our operational efficiency.

We focused on Business Excellence, Business Development and Business Relationships and streamlined our operations around service lines where we have a competitive advantage based on our core competencies. By concentrating our efforts in these areas, we expect cost benefits and a positive impact on our reputation, emphasizing strong service delivery and successful outcomes.

## **Key highlights from our Annual Report 2023:**

**Financial Overview:** We recorded a loss of \$6.97 million in 2023. However, this loss was inflated by a one-time severance cost of \$3.2 million. Without this one-time cost our operating loss would have been \$3.77 million, 13% lower than the prior year.

There were also encouraging signs as revenues increased by 38% year-on-year, with new Property Development business acquisitions of over \$15 million and increased Facilities revenue. These positive trends will move our company closer to profitability.

**Operational Excellence:** We continued to enhance our operational efficiency and streamline our processes, resulting in reduced costs and improved customer satisfaction.

**Innovation and Technology:** Our investments in innovation and technology are also paying off. We have harnessed cutting-edge solutions to stay ahead of the competition, delighting all our stakeholders. Our recent switch to EboxTenders, a *Software as a Service (SaaS)* cloud platform, enabled us to provide a leading-edge Supply Chain Management solution.

**Talent Acquisition & Development:** Our most valuable asset, our employees, have been instrumental in our success. We have recruited people to fill key seats at the Executive and Management level and we consistently nurture our talent as we focus on continuous improvement, learning and growth.

As a board, we are committed to making NIPDEC the premier project and facilities management partner and to helping clients manage their supply chains optimally while managing their procurement processes efficiently and effectively. I thank my fellow directors for their unwavering support throughout the past year and look forward to their insights and wisdom as we guide the NIPDEC leadership team to deliver on our promises.

Looking forward to 2024, we are filled with optimism. I appreciate the entire NIPDEC Team and their discipline, commitment, loyalty and dedication to our shared mantra: ***NIPDEC GETS IT DONE.***

*Nigel Romano*  
*Chairman*

# GENERAL MANAGER'S STATEMENT

The global business landscape has significantly evolved over the last few years. The devastating economic effects of the war in Ukraine in 2022 and the COVID-19 pandemic sent shocks through the global supply chain. We have experienced disruptions in our pharmaceutical supply chain, due to government restrictions and reduced expenditure and this past year has been a testament to our collective dedication, resilience and unwavering commitment to our shared goals.

It gives me great pleasure to declare that despite these challenges, the company experienced a significant 'real' growth of 55% in the 2023 fiscal year. Project and Construction Management, as well as Procurement and Facilities Management activities doubled and this primarily contributed to an increase of 38% (TT\$8.3 million) in company revenue. We incurred a one-off severance cost of TT\$3.2 million due to company restructuring in June 2023 and our company will now save over TT\$2 million in operating expenses annually.

We are more equipped than ever before to weather the challenges of a dynamic global landscape. Despite facing extended lead times and price fluctuations in our pharmaceutical supply chain, our team was still able to attain a remarkable 92% On Time In Full delivery metric and anticipates an improvement in this metric to 95% in the upcoming fiscal year 2023/24. Our company has positioned itself strategically to capture new business within the Property Development and Facilities Management business sectors worth over TT\$20 million and we successfully launched new business agreements negotiated in 2022 during the 2023 fiscal year.

The Ministry of Housing's Drag Brothers Mall and East Side Plaza projects are presently at the pre-construction stage of activities. The Ministry of National Security's Remand Prison Phase 2 upgrade project was completed during the third quarter of the 2023 fiscal year and we will soon be commencing facilities management services for the Wastewater Treatment Plant. The tendering process for the contractor for the National Flour Mills upgrade of their Rice Mill Warehouse in Carlsen field was completed in the fourth quarter of 2023 and works are scheduled to commence in the first quarter of the new financial year.

The 2023 fiscal year has been transformational thus far, as we successfully secured more new projects than in previous years due to our demonstrated commitment to on-time and on-budget project deliveries. Some of the noteworthy projects include:

- Ministry of Works and Transport - Flood Mitigation & Erosion Control Program
- Water & Sewerage Authority - National Water Sector Transformation Program
- Ministry of Works and Transport - Arima Licensing Office
- Ministry of Public Utilities - MET Office Trinidad
- National Insurance Board of Trinidad & Tobago - Queen's Park East Facilities Management

Additionally, the full proclamation of the Public Procurement and Property Disposal Act 2015 on April 26, 2023, provides us with the strategic opportunity to expand our services to various stakeholders as several entities have keenly expressed interest in our procurement activities.

In response to the rise in cybersecurity attacks on local companies, we proactively conducted a cybersecurity risk assessment earlier this year and have already initiated security measures, including the implementation of Security Information and Event Management software and revision of our information and communication technology policies and procedures.

I wish to extend my heartfelt appreciation to every member of our team. It is your hard work, dedication and innovative thinking that makes all the difference. You have shown what a unified, purpose-driven team can achieve, even in the face of adversity. I also want to thank our Board of Directors for their support and guidance through this period of transition.

I present our Annual Report for the year 2023 as it reflects the remarkable journey we have undertaken together. This report is not just a reflection of our past year; it is a testament to our future potential. As we move forward, let's remember that we are in this together and our collective journey promises even greater success and prosperity.

*Vyas Ramphalie*  
*General Manager (Ag.)*

# FINANCIAL REVIEW

For the fiscal year ending June 2023, the company's performance displayed various dynamics worth noting. While we reported an operating loss and total comprehensive loss of \$6.9 million and \$6.7 million respectively, it's important to provide context and highlight areas of growth and opportunity.

Comparatively, the prior year showed an operating loss of \$4.3 million. In 2022, our results were favourably impacted by an Expected Credit Loss (ECL) write-back of \$4.2 million against operating expenses. However, in 2023 the company incurred an expense of \$0.2 million due to changes in our financial landscape. It's important to note that the 2023 loss was influenced by a one-time severance cost of \$3.2 million due to the closure of a department at the end of the financial year.

Despite challenges, our total revenue for the year amounted to \$30.1 million, though it fell below our budget expectations of \$40.0 million. Undeterred by this, Property Development generated \$9.9 million, surpassing the prior year's revenue of \$4.7 million. Moreover, the department made a contribution income of \$3.9 million, a significant improvement from the prior year's loss of \$1.1 million. Additionally, the department secured new business worth over \$15 million during the 2022/23 fiscal year, which will positively impact the 2023/24 financial period.

Car park operations, while falling short of our top-line budget revenue by 3.4% or \$0.277 million, outperformed the previous year by 1.9% or \$0.146 million. Edward Street experienced an increase in lease rates with the client and we plan to review this again in fiscal 2024. Repairs and maintenance expenses had an impact on our profits, as we addressed roofing and other building maintenance issues.

Unfavourable weather and landslides on the North Coast Road affected Maracas' ability to achieve its full revenue potential. Chaguanas car park continues its operations while we await a decision on multistorey expansion. St. Vincent's activities slowed down and have yet to recover to pre-COVID-19 levels.

## FINANCIAL REVIEW

Warehouse operations fell short of budget revenue by \$0.214 million or 4.7%. However, they outperformed the prior year by 2.6% or \$0.107 million. Notably, we increased the utilization rate from 89% at the start of the fiscal year to 90% by adding new tenants, which will contribute an additional \$0.115 million annually. Repairs to guttering and roofing are being carried forward into the new fiscal year due to intermittent heavy rainfall.

Facilities reported a progressive year-on-year performance. New business contracts drove revenue to close at \$4.3 million, significantly surpassing our budget of \$2.0 million and the prior year's profit of \$1.9 million. Although the gross profit percentage declined from 69% to 57%, this was primarily due to the department's need to outsource services. By the end of June 2023, the department had its full complement of Technicians, positioning us well for the new fiscal year 2023/24.

In terms of overheads, direct overheads attributable to our operational business units closed at \$9.9 million, which was lower than the budget of \$11.1 million. The majority of savings came from Administration (\$0.422 million) and Facilities and Utilities (\$0.957 million). These savings were primarily due to essential repairs and cost-control measures.

Indirect overheads of our support departments closed at \$19.4 million, with staff costs being over budget by \$1.1 million due to a \$3.2 million severance cost. Notably, administration costs for the year were \$2.4 million, with significant reductions in legal fees for matters, penalties and interest.

## FINANCIAL REVIEW

As illustrated in Figure 1, we can see a positive trend in the company's historical performance for the past three years, with a gradual increase in revenue and a reduction in operating losses, excluding ECL expenses.

Figure 1 : 2023 Performance Overview (Ex-Credit Losses)

In 2023 we faced challenges with payments from clients, particularly in the public sector. However, our private sector clients improved their outstanding balances significantly moving from 44% (\$0.299m) of the total amount outstanding as at the end of June 2022 to 27% (\$0.109m) as at June 2023. These positive trends give us confidence as we move closer to profitability.

### Revenue:

In a year marked by challenges, it's encouraging to note that most of our revenue streams displayed year-on-year growth. Revenue from contracts with customers reported an increase of 66% or \$7.9 million. This growth was primarily driven by Project and Construction Management (130% or \$2.2 million), Procurement (85% or \$2.8 million) and Facilities Management (130% or \$2.4 million).

## FINANCIAL REVIEW

The expansion in Project and Construction Management was propelled by project activities, including NIB Phase 2 Refurbishment, Drag Brothers Mall, Remand Yard Upgrade and the National Flour Mills Rice Mill Warehouse Upgrade.

Figure 2 demonstrates the positive growth in project and construction management fees, which increased from 14% in 2022 to 20% in 2023. Similarly, procurement management fees saw a notable increase, rising from 27% to 30%, thanks to new business opportunities.

Figure 2: Comparative by Revenue Stream

Figure 2 : Comparative by Revenue Stream

Facilities Management delivered an exceptional performance, with top-line growth of \$2.4 million or a 130% increase in revenue. This growth was primarily fueled by new business contracts.

While our total rental income remained relatively steady, there were variations within the portfolio. The decline in income from car parks owned by the company was due to a client ending their tenancy at Riverside Plaza. Despite a 3% increase in rates at Edward Street car park, revenue was affected by the loss at Riverside Plaza. Furthermore, a reduction in advertising income (17% or \$0.045 million) at Edward Street car park contributed to the offset.

## FINANCIAL REVIEW

As depicted in Figure 3, we can observe minor changes in revenue composition for rental income.

Figure 3: Comparative by Revenue Stream

Figure 3 : Comparative by Revenue Stream

### Profitability:

Our revenue of \$30.1 million, although not as high as anticipated, was an achievement given the challenging environment. However, it resulted in a loss for the year of \$6.9 million. Other comprehensive income of \$0.217 million reduced the total comprehensive loss to \$6.7 million. Notably, the other comprehensive income was the net effect of a positive re-measurement adjustment of the company's defined pension benefit, valued at \$0.454 million and a downward movement in the fair value of investment securities held by the company, amounting to \$0.237 million.

Gross margin declined by 2.1%, moving from 87.5% in 2022 to 85.4% in 2023. This decline was primarily due to Facilities Management's need to outsource services.

The Company reported total overheads excluding ECL of \$33.8 million, representing an 8% or \$2.6 million increase compared to the prior year.

## FINANCIAL REVIEW

Figure 4 below illustrates the trend line for total overheads, excluding ECL.

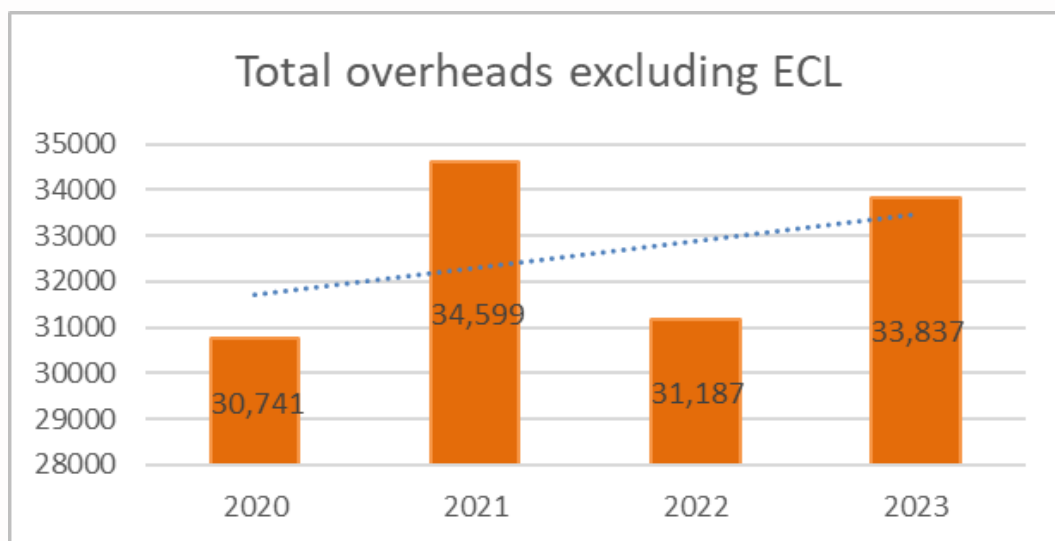

Figure 4 : Four Year Comparison

Staff costs increased by 13%, amounting to \$2.9 million. The main factor behind this increase was the \$3.2 million provision for severance costs incurred at the end of June. The termination of the department is expected to save the Company over \$2.0 million in annual staff costs by outsourcing a non-core support service. The compounded annual growth rate (CAGR) for the past three (3) years was 0.7% for staff cost excluding the one-time severance cost as illustrated in Figure 5 below.

Figure 5 : Four Year Comparison

## FINANCIAL REVIEW

Administration expenses recorded a 3% reduction or \$0.136 million, primarily due to reduced legal fees. Figure 6 demonstrates a steady decline in CAGR of 4.2% for the past three years.

Figure 6 : Four Year Comparison

Accommodation costs increased by 4% or \$0.123 million compared to 2022, primarily driven by repairs and maintenance work at the Chaguaramas Warehouse and Edward Street Car Park. This upward trend reflects our commitment to upgrading the infrastructure of our investment assets. Figure 7 provides a four-year comparison of accommodation costs.

Figure 7 : Four Year Comparison

## FINANCIAL REVIEW

Vehicle expenses decreased by 19% or \$0.04 million as we scaled back expenditures in preparation for upgrading our vehicle fleet. Figure 8 illustrates the four-year trend in vehicle expenses.

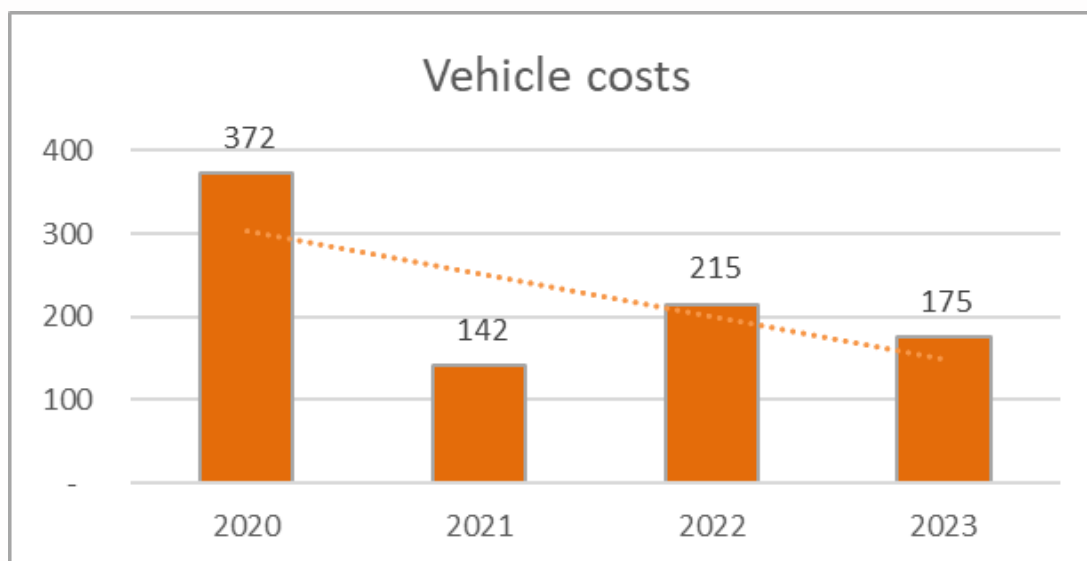

Figure 8 : Four Year Comparison

### Financial Position:

Our financial position remains robust. NIPDEC assets increased by \$171 million, representing a 14% growth to reach \$1.36 billion at the end of 2023. Non-current assets saw a net increase in Defined Benefit Pension Asset, Investment Properties and Investment Securities of \$0.374 million, \$0.25 million and \$1.1 million respectively, offset by a decrease of \$0.826 million in Leased Assets. The increase in Investment Properties was due to an upward movement in the fair value of the Chaguaramas Warehouse. The increase in Investment Securities resulted from receiving \$1.312 million of the TT\$702.867 million 4.25% GORTT bond investment in exchange for the termination of the Clico Investment Fund in January 2023. As seen in Figure 9, our total assets dropped by 2.0% over the past three years.

Figure 9 : Four Year Trend

## FINANCIAL REVIEW

Current assets rose by \$170 million or 15% primarily due to increases in Restricted Cash and Trade Receivables. Restricted Cash included proceeds from the new \$250 million loan for PURE taken out in October 2022. Trade Receivables rose by \$42.6 million, mainly due to outstanding balances from the public sector. While the Company's ECL default rates for invoices aged two to three years increased from 20.0% in 2022 to 21.0% in 2023, we are proactively addressing this issue.

Current Liabilities increased by \$189.9 million or 20%, rising from \$945 million to \$1.1 billion. This increase was driven by higher Project Advances and Accounts Payable and accruals. The new \$250 million PURE loan mentioned earlier contributed to the increase in Project Advances and outstanding balances owed to pharmaceutical suppliers had a similar effect on Accounts Payable and accruals.

Despite the challenges, we managed to maintain a solid working capital position, with a minor decline of \$18.75 million or 0.4% year on year. Our current ratio moved from 1.17 in 2022 to 1.13 in 2023, in line with the trend identified in Figure 10.

Figure 10 : Four Year Comparison

Capital management saw the gearing ratio increase from 2.2 to 2.5, primarily driven by the growth in net debt from \$974.7 million to \$1.1 billion.

Looking ahead, the Company achieved success in winning new business opportunities totalling over \$20 million for project management, procurement, and facilities management activities. The portfolio of projects lined up for 2024 provides a strong foundation for profitability and a positive trajectory of performance.

THE NATIONAL INSURANCE PROPERTY DEVELOPMENT COMPANY LIMITED

STATEMENT OF MANAGEMENT'S RESPONSIBILITIES

Management is responsible for the following:

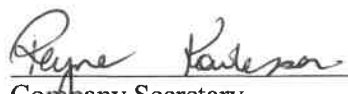

- Preparing and fairly presenting the accompanying financial statements of The National Insurance Property Development Company Limited, ('the Company') which comprise the statement of financial position as at 30 June 2023, the statements of profit or loss and other comprehensive income/(loss), changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information;
- Ensuring that the Company keeps proper accounting records;
- Selecting appropriate accounting policies and applying them in a consistent manner;
- Implementing, monitoring and evaluating the system of internal control that assures security of the Company's assets, detection/prevention of fraud, and the achievement of the Company's operational efficiencies;
- Ensuring that the system of internal control operated effectively during the reporting period;
- Producing reliable financial reporting that complies with laws and regulations; and
- Using reasonable and prudent judgement in the determination of estimates.

In preparing these audited financial statements, management utilised the International Financial Reporting Standards, as issued by the International Accounting Standards Board and adopted by the Institute of Chartered Accountants of Trinidad and Tobago. Where International Financial Reporting Standards presented alternative accounting treatments, management chose those considered most appropriate in the circumstances.

Nothing has come to the attention of management to indicate that the Company will not remain a going concern for the next twelve months from the reporting date; or up to the date the accompanying financial statements have been authorised for issue, if later.

Management affirms that it has carried out its responsibilities as outlined above.

## INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF THE NATIONAL INSURANCE PROPERTY DEVELOPMENT COMPANY LIMITED

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the financial statements of The National Insurance Property Development Company Limited (“the Company”), which comprise the statement of financial position as at 30 June 2023 and the statement of profit or loss and other comprehensive income/(loss), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 30 June 2023 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants’ (“IESBA”) International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Other Information included in the Company’s 2023 Annual Report**

Other information consists of the information included in the Company’s 2023 Annual Report, other than the financial statements and our auditor’s report thereon. Management is responsible for the other information. The 2023 Annual Report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with the audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

## INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF THE NATIONAL INSURANCE PROPERTY DEVELOPMENT COMPANY LIMITED

### **Report on the Audit of the Financial Statements**

(Continued)

#### **Responsibilities of Management and the Audit Committee for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

## INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF THE NATIONAL INSURANCE PROPERTY DEVELOPMENT COMPANY LIMITED

### **Report on the Audit of the Financial Statements**

(Continued)

### **Auditor's Responsibilities for the Audit of the Financial Statements**

(Continued)

- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

**1. Incorporation and principal activities**

The National Insurance Property Development Company Limited ('NIPDEC' or the 'Company') is incorporated in the Republic of Trinidad and Tobago and is a 100% owned subsidiary of the National Insurance Board of Trinidad and Tobago ('NIBTT') which was incorporated under Act No. 35 of 1971 (The National Insurance Act). NIPDEC's registered office is located at 56-60 St. Vincent Street, Port of Spain, Trinidad West Indies. The principal activities of NIPDEC are:

- a) Providing project management services on various major construction projects to its clients, which include large state enterprises and the Government of the Republic of Trinidad and Tobago ('GORTT') so as to ensure these projects are successfully completed on time and within budget from project conception to completion.
- b) Engaging in commercial services including maintenance and rental of buildings and car parks, acting as a receipt agent for mortgage portfolios and procurement of miscellaneous items for the GORTT.
- c) Managing, on behalf of the Ministry of Health, the procurement, storage and distribution of pharmaceutical and non-pharmaceutical medical supplies to various health care facilities in Trinidad and Tobago, which are operated by the Regional Health Authorities.

**2. Application of new and revised International Financial Reporting Standards ('IFRS')**

**2.1 Amendments to IFRS and new interpretations that are mandatorily effective for the current year**

**Amendments to IFRS 3 Business Combination, Reference to the Conceptual Framework**

In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements.

The Board also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC 21 Levies, if incurred separately.

At the same time, the Board decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the Preparation and Presentation of Financial Statements.

The amendments did not have an impact on the Company's financial statements.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**2. Application of new and revised International Financial Reporting Standards ('IFRS')**  
(continued)

**2.1 Amendments to IFRS and new interpretations that are mandatorily effective for the current year** (continued)

**Amendments to IAS 16 - Property, Plant and Equipment: Proceeds before Intended Use**

In May 2020, the IASB issued Property, Plant and Equipment — Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment. The amendments did not have an impact on the Company's financial statements.

**Amendments to IAS 37 Provisions, Contingent Liabilities, Contingent Assets – Onerous Contracts – Cost of fulfilling a Contract**

In May 2020, the IASB issued amendments to IAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. An onerous contract is a contract under which the unavoidable costs of meeting the obligations under the contract costs (i.e., the costs that the Company cannot avoid because it has the contract) exceed the economic benefits expected to be received under it.

The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs (e.g., the costs of direct labour and materials) and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

As a result of the amendments, the Company did not identify any contracts as being onerous as the unavoidable costs under the contracts which has yet to fulfill all its obligations.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**2. Application of new and revised International Financial Reporting Standards ('IFRS')**  
(continued)

**2.1 Amendments to IFRS and new interpretations that are mandatorily effective for the current year** (continued)

**IFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter**

As part of its 2018-2020 annual improvements to IFRS standards process, the IASB issued an amendment to IFRS 1 First-time Adoption of International Financial Reporting Standards. The amendment permits a subsidiary that elects to apply paragraph D16(a) of IFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition to IFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of IFRS 1.

These amendments had no impact on the financial statements of the Company as it is not a first time adopter.

**Amendments to IFRS 9 Financial Instruments – Fees in the '10 percent' test for derecognition of financial liabilities**

As part of its 2018-2020 annual improvements to IFRS standards process the IASB issued amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

In accordance with the transitional provisions, the Company applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment (1 July 2022). These amendments had no impact on the financial statements of the Company as there were no modifications to the Company's financial instruments during the period.

**Amendments to IAS 41 Agriculture – Taxation in fair value measurements**

The amendment removes the requirement in paragraph 22 of IAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of IAS 41. These amendments had no impact on the financial statements of the Company as it did not have assets in scope of IAS 41 as at the reporting date.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**2. Application of new and revised International Financial Reporting Standards ('IFRS')**  
(continued)

**2.2 New and revised IFRS in issue but not yet effective**

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

**Amendments to IAS 1: Classification of Liabilities as Current or Non-current**

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after 1 January 2024 and must be applied retrospectively. The Company is currently assessing the impact the amendments will have on current practice.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Continued)

**2. Application of new and revised International Financial Reporting Standards ('IFRS')**  
(continued)

**2.2 New and revised IFRS in issue but not yet effective** (continued)

**Amendments to IAS 8 Accounting Policies, Changing in Accounting Estimates – Definition of Accounting Estimates**

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Company's financial statements.

**Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 – Disclosure of Accounting Policies**

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The Company is currently assessing the impact of the amendments to determine the impact they will have on the accounting policy disclosures.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**2. Application of new and revised International Financial Reporting Standards ('IFRS')**  
(continued)

**2.2 New and revised IFRS in issue but not yet effective** (continued)

**Amendments to IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction**

In May 2021, the Board issued amendments to IAS 12, which narrow the scope of the initial recognition exception under IAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognized for all deductible and taxable temporary differences associated with leases and decommissioning obligations.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023. This amendment is not expected to have an impact on the Company.

**Amendments to IFRS 16 - Lease Liability in a Sale and Leaseback**

In September 2022, the Board issued Lease Liability in a Sale and Leaseback (Amendments to IFRS 16). The amendment to IFRS 16 Leases specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

A seller-lessee applies the amendment to annual reporting periods beginning on or after 1 January 2024. A seller-lessee applies the amendment retrospectively in accordance with IAS 8 to sale and leaseback transactions entered into after the date of initial application (i.e., the amendment does not apply to sale and leaseback transactions entered into prior to the date of initial application).

The date of initial application is the beginning of the annual reporting period in which an entity first applied IFRS 16. This amendment is not expected to have an impact on the Company.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**3. Basis of preparation**

**a) Statement of compliance**

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

**b) Basis of preparation**

These financial statements have been prepared on the historical cost basis, except for the measurement at fair value of investment securities, investment properties and the revaluation of land and buildings.

**c) Functional and presentation currency**

These financial statements are presented in Trinidad and Tobago dollars, which represent NIPDEC's functional and presentation currency which represents the currency of the primary economic environment in which the entity operates. Amounts are expressed in thousands of Trinidad and Tobago dollars unless otherwise stated.

**d) Use of estimates and judgements**

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**3. Basis of preparation (continued)**

**d) Use of estimates and judgements (continued)**

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is identified below:

|                           |   |
|---------------------------|---|
| Accounting policy 4(b)    | Investment properties                                 |
| Accounting policy 4(c)(i) | Property, plant and equipment ( <i>owned assets</i> ) |
| Accounting policy 4(d)    | Impairment of financial assets                        |
| Accounting policy 4(e)    | Impairment of non-financial assets                    |
| Accounting policy 4(f)    | Defined pension benefit asset                         |
| Accounting policy 4(h)    | Leases  |
| Accounting policy 4(m)    | Provisions  |
| Accounting policy 4(n)    | Revenue recognition                                   |

**4. Summary of significant accounting policies**

**a) Foreign currency**

In preparation of the financial statements, foreign currency transactions are translated into the functional/presentation currency of Trinidad and Tobago dollars using the exchange rates prevailing at the dates of the transactions. Foreign currency exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary items denominated in foreign currencies are recognised in profit or loss of the financial year in which they arise. Monetary items denominated in foreign currencies are translated to the presentation currency using rates existing at year end. Non-monetary items that are denominated in foreign currencies are translated to the presentation currency using rates prevailing at the date when the transaction occurred.

**b) Investment properties**

Investment properties consist of buildings, warehouses, car parks and land held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business or for administrative purposes. Investment properties are measured at cost on initial recognition and subsequently at fair value with any gain or losses therein recognised in the statement of profit or loss. Fair values are based on market values.

To determine fair values, independent valuers perform assessments every year.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected from disposal. Any gain or loss arising on derecognition of the property is included in the statement of profit or loss in the financial year in which the property is derecognised.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**c) Property, plant and equipment**

*(i) Owned assets*

Property, plant and equipment is stated at cost less accumulated depreciation and impairment losses (see accounting policy 4(e)) except for freehold land and buildings which are stated at revalued amounts being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent impairment losses. Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the end of each reporting period. The cost and accumulated depreciation accounts are restated proportionately with every revaluation.

NIPDEC recognises in the carrying amount of an item of property, plant and equipment, the cost of replacing part of such an item when that cost is incurred, if it is probable that the future economic benefits embodied with the item will flow to NIPDEC and the cost of the item can be measured reliably. All other costs are recognised in profit or loss as an expense as incurred.

*(ii) Depreciation*

Freehold land is not depreciated. Property, plant and equipment is depreciated on a straight-line basis to write off the cost of each asset to its residual value over its estimated useful life as follows:

| <b>Class name</b>                    | <b>Depreciation rate range</b> |
|--------------------------------------|--------------------------------|
| Freehold land                        | 0%                             |
| Freehold building                    | 2%-20%                         |
| Fixture fittings plant and machinery | 12.5%-25%                      |
| Computer equipment                   | 20%-33 1/3%                    |
| Computer software                    | 33 1/3%                        |
| Motor vehicles                       | 10%-25%                        |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

*(iii) Disposal*

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**d) Impairment of financial assets**

Further disclosures relating to impairment of financial assets are also provided in the following notes:

- Disclosures for significant assumptions
- Investment securities (Note 10)
- Trade receivables, including contract assets (Note 11)

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted where applicable for forward-looking factors specific to the debtors and the economic environment.

The Company considers a financial asset in default when contractual payments are 3 years past due for debt relating to public customers. For private customers the financial asset is in default when the debt is written off. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**e) Impairment of non-financial assets**

At each reporting date, an assessment is done as to whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit (CGU's) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate or an equivalent post tax rate on post tax cash flows which approximate the tax discount results, which reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

**f) Defined pension benefit asset**

**(i) Retirement benefit costs and termination benefits**

NIPDEC operates a defined pension benefit plan which covers all permanent employees. The cost of providing benefits is determined by using the projected unit credit method with actuarial valuations being carried out at the end of each annual reporting period. In accordance with IAS 19 *Employee Benefits*, remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on the Plan assets (excluding interest) are reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Past service cost is recognised in profit or loss in the year of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- a) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- b) net interest expense or income; and
- c) remeasurement.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**f) Defined pension benefit asset (continued)**

(ii) Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages, salaries and annual leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash flows expected to be made by the Company in respect of services provided by employees up to the reporting date.

(iii) Contributions from employees or third parties to defined benefit plan

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan. When the formal terms of the plan specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service as follows:

- a) If the contributions are not linked to services, they are reflected in the remeasurement of the net defined benefit liability/(asset).
- b) If contributions are linked to service, they reduce service costs.

**g) Financial instruments**

*Date of recognition*

Financial assets and liabilities are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

*Initial measurement of financial instruments*

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments, as described below. Financial instruments are initially measured at their fair value (as defined in Note 35), except in the case of financial assets and financial liabilities recorded at FVPL, transaction costs are added to, or subtracted from, this amount. Trade receivables are measured at the transaction price.

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either amortised cost, FVOCI or FVPL, as explained below.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**g) Financial instruments (continued)**

*Financial investments at amortised cost*

The Company only measures financial investments at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The Company's financial assets at amortised cost includes trade and other receivables.

*Debt instruments at FVOCI*

The Company applies the category under IFRS 9 of debt instruments measured at FVOCI when both of the following conditions are met:

- The instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets.
- The contractual terms of the financial asset meet the SPPI test.

FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI, with recycling through profit or loss. Interest income and foreign exchange gains and losses are recognised in profit or loss in the same manner as for financial assets measured at amortised cost.

*Equity instruments at FVOCI*

Upon initial recognition, the Company occasionally elects to classify irrevocably some of its equity investments as equity instruments at FVOCI without recycling when they meet the definition of Equity under IAS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit. Dividends are recognised in profit or loss as other operating income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**g) Financial instruments (continued)**

*Financial assets and financial liabilities at fair value through profit or loss*

Financial assets and financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under IFRS 9. Management only designates an instrument at FVPL upon initial recognition when one of the following criteria are met. Such designation is determined on an instrument-by-instrument basis:

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis; or
- The liabilities are part of a Company of financial liabilities, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The liabilities containing one or more embedded derivatives, unless they do not significantly modify the cash flows that would otherwise be required by the contract, or it is clear with little or no analysis when a similar instrument is first considered that separation of the embedded derivative(s) is prohibited.

Financial assets and financial liabilities at FVPL are recorded in the statement of financial position at fair value.

*Reclassification of financial assets and liabilities*

From 1 July 2018, the Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

- Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**g) Financial instruments (continued)**

*Reclassification of financial assets and liabilities (continued)*

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following three conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients
- The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration the Company could be required to pay.

If continuing involvement takes the form of a written or purchased option (or both) on the transferred asset, the continuing involvement is measured at the value the Company would be required to pay upon repurchase. In the case of a written put option on an asset that is measured at fair value, the extent of the entity's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**g) Financial instruments (continued)**

*Financial liabilities*

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

**h) Leases**

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

*Company as a lessee*

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

|                    |              |
|--------------------|--------------|
| Leasehold land     | 30 years     |
| Leasehold building | 10 years     |
| Other assets       | 3 to 5 years |

The right-of-use assets are also subject to impairment. Refer to the accounting policies in 4 e) Impairment of non-financial assets.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**h) Leases (continued)**

*Company as a lessee (continued)*

ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of motor vehicles, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4 Summary of significant accounting policies (continued)**

**h) Leases (continued)**

*Company as a lessor*

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

**i) Cash and cash equivalents**

Cash and cash equivalents comprise (i) cash at bank and in hand and (ii) restricted cash with original maturities of three (3) months or less. Cash and short-term deposits are short-term liquid investments with balances that are readily convertible into known amounts of cash without notice.

Restricted cash represents monies received by the Company to be utilised specifically for completion of several projects on behalf of the GORTT. The amount of restricted cash is sourced from debt instruments (bonds and loans) and monies received directly from administrative offices of the GORTT.

**j) Accounts receivable**

Accounts receivable include amounts billed for work performed but not yet paid by the customer for projects, the Ministry of Health under the Pharmaceutical business division and other direct reimbursable expenditure. Receivables are recognised initially at fair value and subsequently measured at amortised cost, less an estimated credit loss as required under IFRS 9. This estimated credit loss is recognised in profit or loss.

**k) Unbilled project costs, advance project billings and project advances**

NIPDEC acts as a project or construction manager and in some instances as a paying agent on behalf of its client. This means that progress billings from contractors to NIPDEC for various projects are accumulated in the books of account as project costs. These costs are eventually transferred to the respective clients via NIPDEC billings and recorded as accounts receivable. Contract costs incurred to date that are not transferred to accounts receivable are classified in the statement of financial position as 'unbilled project costs'. NIPDEC billings for contractor costs not incurred to date are classified in the statement of financial position as 'advance project billings'.

In certain instances, monies are received in advance of costs being incurred, and these amounts have been separately classified in the statement of financial position as 'project advances'.

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**l) Accounts payable and accruals**

Trade and other amounts payable are carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received.

**m) Provisions**

Provisions are recognised when NIPDEC has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle an obligation, and a reliable estimate of the amount of the obligation can be made.

**n) Revenue recognition**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that is reflective of the consideration to which the Company expects to be entitled to in exchange for the goods or services. Revenues earned by NIPDEC are recognised on the following bases:

*Project management fees and construction management fees*

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. These fees are recognised in income based on contract costs incurred to date as a percentage of the total estimated cost of the project. The timing of revenue recognition through profit or loss may differ from the fee payment schedule agreed by the client.

*Procurement services*

Revenue from a procurement service contract is recognised when the obligation to provide the procurement service is deemed satisfied.

*Facilities Management services*

Management fees for routine service contracts are recognised each month the service is provided based on a fixed income. For non-routine services, revenue is recognised as the service is provided.

*Car Parks: Managed*

Management fees for operating the car parks on behalf of the client are recognised each month the service is provided on a commission type arrangement based on the gross receipts collected.

*Real estate*

Management fees for the management of the properties on behalf of the client are recognised each month the service is provided based on a fixed income. Collection fees for the collection of mortgage payments are recognised each month the service is provided on a commission type arrangement based on the gross amount collected.

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**n) Revenue recognition (continued)**

*Prisoner transport*

Management fees for the management of the prisoner transport service are recognised each month the service is provided based on a fixed income.

*Paying agency fees*

Management fees for the disbursement of funds to creditors of the Trinidad and Tobago Police Service are recognised each month when the service is provided. It based on a commission type arrangement on the funds paid to the creditors.

*Operation Management Services (OMS) – C40 Central Stores Facilities*

Management fees for operating the distribution of pharmaceutical and non-pharmaceutical drugs to Regional Health Corporations and pharmacies on behalf of the Ministry of Health are recognised each month the service is provided based on a fixed income.

*Rental income*

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. The Company as a lessor, provides warehouse rental space and car park space at multi-storey facilities in the form of operating leases.

*Interest income*

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's carrying amount on initial recognition.

*Other operating income*

This is recognised on an accrual basis unless collectability is doubtful.

**o) Taxation**

NIPDEC is exempt from corporation tax and business levy by virtue of section 6 (1) of the Corporation Tax Act 75:02 and therefore has not accounted for income taxes under IAS 12 Income Taxes in these financial statements. However, NIPDEC is required to pay green fund levy, which is accrued for and presented within administrative expenses in profit or loss.

**p) Related parties**

Parties are considered related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operating decisions. Related parties could be companies, individuals or other GORTT related entities. In the ordinary course of its business, NIPDEC enters into transactions concerning the exchange of goods, provision of services and financing with the NIBTT.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**4. Summary of significant accounting policies (continued)**

**q) Fair value measurement**

NIPDEC measures financial instruments such as investment securities and non-financial assets such as investment properties and land/buildings, at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability; or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by NIPDEC.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

NIPDEC uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, NIPDEC determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

**4. Summary of significant accounting policies (continued)**

**r) Current versus non-current classification**

NIPDEC presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- a) Expected to be realised or intended to be sold or consumed in the normal operating cycle
- b) Held primarily for the purpose of trading
- c) Expected to be realised within twelve months after the reporting period
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- a) It is expected to be settled in the normal operating cycle
- b) It is held primarily for the purpose of trading
- c) It is due to be settled within twelve months after the reporting period
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

NIPDEC classifies all other liabilities as non-current.

On 24 May 2023, the investment properties were independently valued by a third party professional valuator, namely, Linden Scott and Associates Ltd, Chartered Valuation Surveyors. This resulted in an increase in the fair value of the Edward Street car park of \$0.25 million. The fair value represents the amount at which the assets could be exchanged between a knowledgeable, willing buyer and a knowledgeable willing seller in an arm's length transaction at the date of the valuation, in accordance with International Valuation Standards Committee standards.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**6. Property, plant and equipment** (continued)

*Revaluation of freehold property*

The freehold property has been independently valued by a third party professional valuator, namely, Linden Scott and Associates, Chartered Valuation Surveyors, during the year. Fair value was determined by reference to market based evidence. The date of the last valuation report was 24 May 2023.

If freehold land and property were stated at historical cost, the amount would be as follows:

| <b>Freehold land</b>                                 | <b>2023</b>  | <b>2022</b>  |
|--|--------------|--------------|
| Cost   | 7,262        | 7,262        |
| Accumulated depreciation                             | —            | —            |
|  | <u>7,262</u> | <u>7,262</u> |
| <b>Freehold property</b>                             |              |              |
| Cost   | 16,154       | 16,154       |
| Accumulated depreciation                             | (13,892)     | (13,569)     |
| <b>Net book value</b>                                | <u>2,262</u> | <u>2,585</u> |
| <b>Freehold land and property at historical cost</b> | <u>9,524</u> | <u>9,847</u> |

**7. Leases**

**NIPDEC as a lessee**

The Company has lease contracts for land, building and various items of office equipment and motor vehicles. Leases of land and buildings generally have lease terms of 30 and 10 years respectively, while motor vehicles and other equipment generally have lease terms between 3 and 5 years. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

The Company also has certain leases of machinery with lease terms of 12 months or less and with low value. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

| Fair value of plan assets at end of year        | <b>87,216</b> | <b>86,846</b> |

The asset values as at 30 June 2023 were provided by the Plan's Investment Manager (First Citizens Asset Management Limited). Overseas equities have quoted prices in active markets. Local equities also have quoted prices but the market is relatively illiquid. The Investment Manager calculates the fair value of the Government bonds and corporate bonds by discounting expected future proceeds using a constructed yield curve.

The majority of the Plan's Government bonds were issued by the GORTT, which also guarantees many of the corporate bonds held by the Plan.

The Plan's assets are invested in a strategy agreed with the Plan's Trustee and Management Committee. This strategy is largely dictated by statutory constraints (at least 70% of the assets must be invested in Trinidad and Tobago and no more than 50% in equities) and the availability of suitable investments. There are no asset-liability matching strategies used by the Plan.

| <b>Closing defined benefit asset</b>                    | <u><b>(24,685)</b></u> | <u><b>(24,311)</b></u> |

**i) Summary of principal assumptions as at 30 June**

|                                     |       |       |
|-------------------------------------|-------|-------|
| Discount rate                       | 6.00% | 6.00% |
| Average individual salary increases | 4.75% | 4.75% |
| Future pension increases            | 0.00% | 0.00% |

Assumptions regarding future mortality are based on published mortality tables. The life expectancies underlying the value of the defined benefit obligation as at 30 June 2022 and 2021 are as follows:

|   | <b>2023</b> | <b>2022</b> |
|---|-------------|-------------|
| Life expectancy at age 60 for current pensioner in years      |             |             |
| - Male  | 21.9        | 21.9        |
| - Female  | 26.2        | 26.1        |
| Life expectancy at age 60 for current members age 40 in years |             |             |
| - Male  | 22.8        | 22.7        |
| - Female  | 27.1        | 27.1        |

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**8. Defined benefit pension asset (continued)**

**j) Sensitivity analysis**

The calculation of the defined benefit obligation is sensitive to the assumptions used. The following table summarises how the defined benefit obligation as at 30 June 2023 would have changed as a result of a change in the assumptions used.

|                           | <b>1% p.a.<br/>higher<br/>\$'000</b> | <b>1% p.a.<br/>lower<br/>\$'000</b> |
|---------------------------|--------------------------------------|-------------------------------------|
| - Discount rate           | (6,178)                              | 7,521                               |
| - Future salary increases | 1,870                                | (1,686)                             |

An increase of 1 year in the assumed life expectancies shown above would increase the defined benefit obligation at 30 June 2023 by \$0.829 million (2022: \$0.805 million).

These sensitivities were calculated by re-calculating the defined benefit obligations using the revised assumptions.

**k) Funding**

The Company meets the balance of the cost of funding the defined benefit pension plan and must pay contributions at least equal to those paid by members, which are fixed. The funding requirements are based on regular (at least every 3 years) actuarial valuations of the Plan and the assumptions used to determine the funding required may differ from those set out above. The Company expects to pay \$0.324 million to the Pension Plan during 2023/24. However, this amount could change if outstanding pay negotiations are completed subsequent to year end.

| <b>9. Cash and cash equivalents</b> | <b>2023</b>          | <b>2022</b>          |
|-------------------------------------|----------------------|----------------------|
| <b>a) Cash at bank and in hand</b>  |                      |                      |
| Cash at bank                        | 88,152               | 85,049               |
| Cash in hand                        | <u>21</u>            | <u>21</u>            |
| Total cash at bank and in hand      | <u><b>88,173</b></u> | <u><b>85,070</b></u> |

Cash at bank earns interest at floating rates based on daily bank deposit rates. The Company can make short-term deposits for varying periods of between one day and twelve months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

No cash and cash equivalents are pledged as collateral for financial liabilities. The Company has approved credit card facilities undrawn in the amount of \$0.4 million at year end.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**9. Cash and cash equivalents (continued)**

**b) Restricted cash**

Restricted cash refers to monies raised either by NIPDEC's financing activities (bonds) or given to the Company directly through the Government's Programme for Upgrade of Road Efficiency (PURE) to be used specifically to fund the execution of various projects. The use of these funds is usually specified by contract, Cabinet note or memorandum of understanding where NIPDEC has a right of use of the cash by such projects. It also includes disbursements received from the Ministry of Health for the recurrent and capital expenditure of the C-40 pharmaceutical operations and loan proceeds for acting as paying agent for the Trinidad and Tobago Police Service's suppliers.

The carrying amount of restricted cash of \$485.172 million (2022: \$365.918 million) is represented as follows:

|   | <b>2023</b>           | <b>2022</b>           |
|---|-----------------------|-----------------------|
| Ministry of Education                                   | 3,354                 | 3,355                 |
| Ministry of Health                                      | 10,531                | 18,949                |
| Ministry of Works and Transport                         | 464,097               | 295,670               |
| Office of the Prime Minister – Gender and Child Affairs | 718                   | 729                   |
| Trinidad and Tobago Police Service                      | 6,472                 | 47,215                |
|   | <u><b>485,172</b></u> | <u><b>365,918</b></u> |

Included within restricted cash is an amount of \$25 million relating to a Certificate of Deposit with a maturity period of 365 days maturing 14 February 2024. Interest is earned at 0.75% per annum.

**c) Restricted cash as per Statement of Cash Flows**

|   | <b>2023</b>           | <b>2022</b>           |
|---|-----------------------|-----------------------|
| Restricted cash as above (Note 9b)                              | 485,172               | 365,918               |
| Less: restricted cash with maturities of more than three months | (25,000)              | –                     |
| <b>Restricted cash as per Statement of Cash Flows</b>           | <u><b>460,172</b></u> | <u><b>365,918</b></u> |

**Transactions through equity**

As at 30 June 2023, the Company adjusted accounts payable and unbilled project cost balances in respect of prior period adjustments identified in the amount \$3.018 million (increase in retained earnings of prior years). CIF dividends for the period 2013 to 2015 were received during the year in the amount of \$0.732 million and were recorded within retained earnings. All adjustments resulted in a net increase in retained earnings of \$3.75 million. The adjustments to accounts payable, unbilled project cost and the CIF dividend all related to reporting periods prior to 2018.

**14. Revaluation reserve**

The revaluation reserve comprises the revaluation surplus on freehold property. The amount of the reserve is \$12.429 million as at year end (2022: \$12.429 million).

**15. Fair value reserve**

The fair value reserve comprises the cumulative net change in the fair value of investment securities until the investments are derecognised or impaired. The amount of the reserve is negative \$0.778 million (2022: \$2.811 million) and the movement during the year is disclosed in Note 10.

|   | <u><b>708,770</b></u> | <u><b>650,471</b></u> |

Terms and conditions of the above financial liabilities:

- Trade payables are non-interest bearing and are normally settled on 30-day terms for projects.
- Trade payables – Pharmaceutical payments are non-interest bearing and are normally settled on 45-day terms as per contracts with suppliers.

*Due to pharmaceutical suppliers* - Pursuant to a contractual relationship with the Ministry of Health, NIPDEC is responsible for the procurement, storage and distribution of pharmaceutical and non-pharmaceutical medical supplies to various health care facilities operated by the Regional Health Authorities.

As part of its contractual obligations, NIPDEC receives and checks invoices from medical suppliers, and records the liability due to them. The accumulated amounts are billed to the Ministry of Health and payments are made to the suppliers upon receipt of funds. Amounts due from the Ministry of Health have been included in accounts receivable.

*Retention* - Retention is a percentage (often 5%) of the amount certified as due to the contractor on an interim certificate, that is deducted from the amount due and retained by NIPDEC. The purpose of retention is to ensure that the contractor properly completes the activities required of them under the contract. The current portion of retentions is expected to be settled within twelve (12) months of the reporting date.

| Performance obligations satisfied in prior year | <u>—</u>             | <u>—</u>            |

Contract liabilities relate to billings made to customers for which no revenue was recognised to date. These billings may have been based on milestones being met that are not reflective of meaningful progress towards the satisfaction of performance obligation. Billings may also be based on the advances required prior to or on commencement of required work. It also includes the portion of Project Advances that relate to fees yet to be earned or recognised. The outstanding balances of these accounts increased in 2023 due to the undertaking of new contracts during the period

The significant increase in contract liabilities for the year 2023 can be attributed predominantly to the invoicing of \$2.3 million to WASA. This invoicing aligns with the terms outlined in the memorandum of understanding and pertains to services encompassing procurement, project and construction management, as well as FIDIC Engineer Services. These services are integral components of the National Water Sector Transformation Programme.

All revenue from contract with customers was earned in Trinidad and Tobago for the current and prior year.

**b) Performance obligations**

Information about the Company's performance obligations is summarised below:

*Project and Construction Management Services*

The obligation is satisfied through the provision of project management and construction management services of the projects by milestones within the contracts. Payment is generally due 30 to 90 days after the completion of the obligation. Therefore, revenue is recognized over time as the milestones are achieved. There are also obligations to pay the contractors on behalf of the client. The transaction price is allocated separately to project management and construction management services.

*Procurement services*

Non PURE – The obligation is to procure either a service or item on behalf of the client. The obligation is satisfied when the service or item is delivered. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue is therefore recognised at a point in time. The transaction price is allocated entirely to the obligation.

PURE – There are two distinct obligations in the provision of this service. The first obligation is to select suitable contractors to award the contracts to and the second is to pay the contractors on the awarded contracts. Revenue is recognized when contracts are awarded and when payments on the contracts are made. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue is therefore recognised at a point in time. The transaction price is allocated separately to the two performance obligations.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)  
(Continued)

**20. Revenue from contracts with customers** (continued)

**b) Performance obligations** (continued)

*Facilities Management services*

The performance obligation is satisfied through the provision of facilities management expertise for routine and non-routine maintenance services. These are two identifiable separate obligations. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue from routine maintenance services is recognised monthly as time elapses on the contract and the non-routine maintenance fees are recognised as incurred. The transaction price is allocated separately to the routine and non-routine maintenance services. Revenue is therefore recognised both over time and at a point in time.

*Carparks: Managed*

The obligation is satisfied through management of the carparks which are owned by the clients. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue is recognised monthly as time elapses on the contract. The transaction price is allocated entirely to the obligation. Revenue is therefore recognised over time as the contract elapses.

*Real Estate*

There are two performance obligations. The first obligation is satisfied through management of properties with the client's mortgage portfolio. The second is the collection of mortgage payments. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue from the management of the properties is recognised monthly as time elapses on the contract and the mortgage payments fees are recognised as incurred. The transaction price is allocated to separately to the two obligations. Revenue is therefore recognised both over time and at a point in time.

*Prisoner Transport*

The obligation is to procure and manage prisoner transportation services. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue is recognised monthly as time elapses on the contract. Revenue is therefore recognised over time. The transaction price is allocated entirely to the performance obligation.

*Paying agency fees*

The performance obligation is to disburse funds to creditors of the Trinidad and Tobago Police Service with funds given to us by the Ministry of Finance for that specific purpose. The disbursement is done on the instruction of the Commissioner of Police and the approval of the Minister of Finance. Revenue is recognized when the contractor is paid and based on the value of the payment made.

*Operation Management Services (OMS) – Pharmaceutical agency fee*

The performance obligation is to procure, store and distribute medical supplies on behalf of the client. Payment is generally due 30 to 90 days after the completion of the obligation. Revenue is recognised monthly as time elapses on the contract. Revenue is therefore recognised over time. The transaction price is allocated entirely to the performance obligation.

| Savings and pension contributions  | 683           | 1,567         |
| Other staff costs  | 1,410         | 1,567         |
|  | <u>25,480</u> | <u>22,564</u> |

During the year management carried out a restructure of the operating departments in support of the strategic initiatives identified in the 2022 -2024 strategic plan. As at the end of June 2023, the Security Department was made redundant with a contractual obligation that would require a provision for severance cost that is within the scope of IAS 37 *Provisions, Contingent Liabilities, Contingent Assets*. Total severance cost recorded during the year was \$3.2 million (2022: \$0.062 million) and is included within salaries and wages.

**33. Financial risk management**

**Overview**

NIPDEC has adopted risk management policies and has set appropriate limits and controls to manage and mitigate against financial risk. NIPDEC has exposure to the following risks from its use of financial instruments.

- Credit risk
- Liquidity risk
- Market risk

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**33. Financial risk management (continued)**

**Overview (continued)**

**i) Credit risk**

Credit risk refers to the risk that a counterparty will default on its contractual obligations under a financial instrument or customer contract, resulting in financial loss to the Company. Trade and other receivables consist of mainly public sector entities of the GORTT with an amount of \$666 million (2022: \$511 million). As a result of the concentration of credit risk with the GORTT, management has made the assessment that NIPDEC's exposure is considered medium since public sector entities as a collective take longer to pay than any single counterparty in the private sector.

*Management of credit risk*

The credit risk in respect of certain customer balances is managed through NIPDEC's establishment of an allowance for impairment that represents its estimate of incurred losses in respect of trade receivables. NIPDEC has created specific allowances for the receivables based on information which show that the receivable balance is uncollectable.

|                                    | <b>Net maximum exposure</b> |                |
|------------------------------------|-----------------------------|----------------|
|                                    | <b>2023</b>                 | <b>2022</b>    |
| Trade receivable (Note 11)         | 473,362                     | 430,716        |
| Government bonds( Note 10)         | 1,122                       | –              |
| Cash and cash equivalents (Note 9) | 548,345                     | 450,988        |
| Certificate of deposit (Note 9c)   | 25,000                      | –              |
|                                    | <u>1,047,829</u>            | <u>881,704</u> |
| Total credit risk exposure         |                             |                |

**Credit quality per category of financial asset**

The credit quality of the balances due from the Company's various counterparties is internally determined from an assessment of each counterparty based on a combination of factors.

These factors include financial strength and the ability of the counterparty to service its debts, the stability of the industry or market in which it operates and its proven track record with the Company. The categories defined are as follows:

**Superior:** This category includes balances due from Government and Government agencies and balances due from institutions that have been accorded the highest rating by an international rating agency or is considered to have the highest credit rating. These balances are considered risk free.

**Desirable:** These are balances due from counterparties that are considered to have good financial strength and reputation.

**Acceptable:** These are balances due from counterparties that are considered to have fair financial strength and reputation.

**Sub-standard:** Balances that are impaired.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**33. Financial risk management** (continued)

**Overview** (continued)

**i) Credit risk** (continued)

The table below illustrates the credit quality of the Company's trade receivable financial assets as at 30 June:

|             | <b>Superior</b> | <b>Desirable</b> | <b>Acceptable</b> | <b>Sub-standard</b> | <b>Total</b> |
|-------------|-----------------|------------------|-------------------|---------------------|--------------|
| <b>2023</b> | 472,966         | 396              | –                 | –                   | 473,362      |
| <b>2022</b> | 430,041         | 675              | –                 | –                   | 430,716      |

**ii) Liquidity risk**

Liquidity risk is the risk that NIPDEC will not be able to meet its financial obligations as they fall due.

*Management of liquidity risk*

NIPDEC manages its liquidity risk by monitoring its risk of a shortage of funds using a daily cash balance, daily cash flow report and monthly investment schedule. This report considers the daily cash balance, the date of maturity of investments and projected cash flows for payments.

The following table details the Company's expected maturity for its non-derivative financial assets against the contractual maturities of financial liabilities, including interest payments:

| <b>2023</b>                             | <b>Carrying amount</b> | <b>Contractual cash flows</b> | <b>0-12 Months</b>    | <b>1-5 years</b>       | <b>More than 5 years</b> |
|---|------------------------|-------------------------------|-----------------------|------------------------|--------------------------|

**iii) Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect NIPDEC's income or its holding of financial instruments. NIPDEC has exposure to market risks on interest rates and currency. NIPDEC's objective is to manage and control these exposures within acceptable parameters.

a) Interest rate risk

All NIPDEC's financial liabilities and the majority of its financial assets are at fixed interest terms. Interest rates on short-term investments are determined by the market. As a result, this minimises any interest rate risk faced by NIPDEC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**33. Financial risk management** (continued)

**iii) Market risk** (continued)

b) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

*Management of currency risk*

NIPDEC is exposed to currency risk with respect to its current assets denominated in currencies other than its functional currency. NIPDEC's functional currency is the Trinidad and Tobago dollar. These current assets are primarily denominated in United States ('US') and Eastern Caribbean ('EC') dollars.

As at 30 June 2023, NIPDEC had assets denominated in foreign currencies amounting to \$9.8 million (2022: \$9.5 million).

The following average exchange rate applied during the respective periods:

|      | <b>2023</b> | <b>2022</b> |
|------|-------------|-------------|
| EC\$ | 2.500       | 2.501       |
| US\$ | 6.752       | 6.757       |

**Sensitivity analysis:**

A one percent strengthening of the TT\$ against the following currencies at year-end would increase/(decrease) profit by the amounts shown below. This analysis is performed on the same basis for 2022 on the basis that all other variables remain constant.

|                | <b>2023</b> | <b>2022</b> |
|----------------|-------------|-------------|
| Effect in TT\$ |             |             |
| EC\$           | (14)        | (35)        |
| US\$           | (62)        | (49)        |

NIPDEC mitigates against its foreign exchange risk by ensuring that the net exposure in foreign assets and liabilities is kept to an acceptable level by monitoring currency positions as well as holding foreign currency balances.

**Fair value measurement**

The Company uses the following hierarchy for determining and disclosing the fair value of financial assets and liabilities that are measured at fair value on a recurring basis in the financial statements based upon the level of judgement associated with the inputs used to measure their fair value. The hierarchical levels from lowest to highest are as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. The types of assets carried at Level 1 fair value are equity and debt securities listed in active markets.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs are derived principally from or corroborated by observable market data by correlation or other means at the measurement date and for the duration of the instrument's anticipated life.

The assets generally included in this fair value hierarchy are time deposits, foreign exchange and interest rate derivatives and certain investment funds. Foreign exchange derivatives and interest rate derivatives are valued using corroborated market data. The liabilities generally included in this fair value hierarchy consist of foreign exchange derivatives and options on equity securities.

Level 3 - Inputs that are unobservable for the asset or liability for which there are no active markets to determine a price. These financial instruments are held at cost being the fair value of the consideration paid for the acquisition of the investments and are regularly assessed for impairment.

The fair value of financial instruments traded in active markets is based on quoted market prices at the statement of financial position date. The quoted market price used for financial assets held by the Company is the current bid price.

The nominal value less impairment provisions of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments.

The following table presents the Company's assets and liabilities that are measured at fair value at 30 June 2023:

|                                      | Level 1       | Level 2       | Level 3 | Total         |
|--------------------------------------|---------------|---------------|---------|---------------|
| <b>Assets measured at fair value</b> |               |               |         |               |

| Investment securities (Note 10):     |         |               |         |               |
| - Equity securities                  | –       | 10,889        | –       | 10,889        |
|                                      | –       | <b>64,489</b> | –       | <b>64,489</b> |

During the current year the Clico Investment Fund was terminated by the Government of Trinidad and Tobago (GORTT) and converted the shareholdings into Republic Financial Holdings Limited (RFHL) shares and GORTT Series 2 TT\$702.867 million 4.25% fixed rate bonds. The two securities were classified as level 1.

**34. Capital management**

It is NIPDEC's objective when managing capital to maintain a strong base to sustain future development of the business in order to increase shareholder value for its shareholders and benefits for other stakeholders. The Board of Directors monitors the return on capital which NIPDEC defines as equity. The Company monitors capital on the basis of the gearing ratio which is calculated as debt-to-equity. Total debt consists of total liabilities offset by 'unbilled project costs' (Note 12) and 'cash and cash equivalents' (Note 9). The total liabilities comprise non-current liabilities and current liabilities. The equity of the Company consists of issued capital, reserves and retained earnings.

The gearing ratio at the end of the reporting period was as follows:

|  | 2023           | 2022           |
|--|----------------|----------------|
| Total liabilities                        | 1,148,843      | 974,751        |
| Less: Unbilled project costs (Note 12)   | (37,905)       | (39,242)       |
| Less: Cash and cash equivalents (Note 9) | (548,345)      | (450,988)      |
| Less: Certificate of Deposit (Note 9c)   | (25,000)       | –              |
| Net debt                                 | <b>537,593</b> | <b>484,521</b> |
| Total equity                             | <b>214,167</b> | <b>217,174</b> |
| Debt-to-equity                           | 2.51           | 2.23           |

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

Continued)

**35. Determination of fair values**

A number of NIPDEC's accounting policies and disclosures requires the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods.

When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

*i) Investment properties and freehold land and building*

An external, independent valuation company, having appropriate recognised professional qualifications and recent experience in the location and category of property being valued, values the Company's investment property portfolio and freehold land and buildings annually. The fair values are based on market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably and willingly. Fair value is based on directly or indirectly observable inputs (Level 2).

*ii) Investment securities*

The fair value of equity and debt investment securities is determined by the market value at the measurement date based quoted prices in active markets. (Level 1).

*iii) Other*

The carrying amounts of financial assets and liabilities approximate their fair values because of the short-term maturities on these instruments. The carrying values of short-term deposits are assumed to approximate fair value due to their term to maturity not exceeding one year.

**36. Commitments**

**Capital commitments**

There were \$0.638 million commitments for capital expenditure approved or contracted as at 30 June 2023 (2022: nil).

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2023

(Expressed in thousands of Trinidad and Tobago dollars unless otherwise stated)

(Continued)

**37. Agency arrangements**

NIPDEC holds several fixed rate bonds and seven demand loans that are not recorded in the financial statements. These borrowings were raised on behalf of the GORTT to finance various Government projects managed by NIPDEC for the GORTT. The bonds and loans have tenures of 12 to 18 years with maturity dates of 2025 to 2032.

The various Trust Deeds for the fixed rate bonds provide that NIPDEC's obligations to pay principal and interest on these bonds are limited to the maximum amount that NIPDEC has received from the GORTT for these obligations. Where bond repayments have become due, the GORTT has committed to and has been directly servicing the semi-annual principal and interest repayments.

These bonds and demand loans are not recognised in the books of NIPDEC since NIPDEC has no beneficial interest in these funds:

- a. NIPDEC acts as an agent to source and disburse funds in relation to projects undertaken on behalf of the GORTT; there is no outflow of resources by NIPDEC as interest and principal repayments are serviced directly by GORTT;
- b. The Trust Deeds provide for limited recourse against NIPDEC;
- c. All repayments of principal and interest are being serviced directly by the GORTT.

The principal outstanding on these limited recourse fixed rate borrowings amounted to \$7.2 billion at 30 June 2023 (2022: \$6.7 billion). An analysis of the borrowings is as follows:

| <b>Bonds</b>                            |             |                           | <b>2023</b>             | <b>2022</b>             |

**38. Contingent liabilities**

As at 30 June 2023, NIPDEC was subject to several legal claims and actions. After taking legal advice as to the likelihood of success of the claims and actions, where appropriate, provisions were established based on legal advice received and precedent cases. NIPDEC is either vigorously defending these claims or attempting to settle the same (where advised) to reduce litigation costs. In addition, NIPDEC also has several legal matters arising out of projects undertaken on behalf of various government Ministries. For these matters, the claims, judgements and legal costs are fully reimbursed by the client Ministries.

**39. Dividends**

The Company paid and declared no dividend during the current 2023 financial year (2022: Nil) to its parent company, NIBTT.

**40. Events after the reporting date**

No significant events occurred after the reporting date which would affect the financial performance, position or changes therein for the reporting period presented in these annual financial statements.
